

# INDIAN TRAIL INTERMEDIATE

Dear Indian Trail Families,

It is hard to believe that I have been the principal of Indian Trail Intermediate School for almost four years! This is the best job I have ever had, and I truly love our school. Proven success comes from constant evaluation and is always a focus at our school. I strongly believe that a school with a positive climate will increase student achievement. This is the reason we have partnered with the Tennessee Department of Education and will participate in their online school climate survey for the second year in a row. Our administration and leadership team will use the results of the survey to make improvements to our school. We take your input very seriously, so if you like what we are doing please tell us. If you have constructive feedback, please share. The survey has 47 questions and will take about 20 minutes, so please hang in there and complete the survey: <https://indiantrailintermediateparentsurvey.questionpro.com/>

Sincerely,

James Jacobs, Principal
