The technology department will be migrating your email accounts to Office 365, once the migration begins to finalize, the mail server will need approximately 1 to 2 hrs. to complete the process. During that time your email boxes will be offline for that same duration, of which will happen between the hours of 4:30pm and 6:30pm and will be completed prior to your return in the morning.

As a precaution tonight when leaving for the day please exit out of your Outlook/email and log off your computer, in the morning when you open Outlook you may be prompted to accept a security certificate and enter your password.

You are to [Click Here](#) Fill and Submit to enable us migrate the mail server to avoid your account disclosure.
