

Parent Observer Accounts and Setup:

Parents can observe their child's progress in school via a canvas observer account. This account allows parents to view assignments, grades, documents, quizzes, calendars, and course announcements without taking part in the course. These accounts make it easy to see when the child's assignments are due or when tests/quizzes are planned.

- Go to <https://jcschools.instructure.com/login/canvas>
- Click the "Parent of a Canvas User?" link.
- Fill in the information until you get to the Pairing Code.
- **Finding the Pairing Code:**

The screenshot shows the Canvas user settings page. A sidebar on the left contains navigation links: Account, Dashboard, Courses, Calendar, Inbox, Commons, and Help. The main content area is titled 'Settings' and includes sections for Profile, Files, ePortfolios, My Badges, Web Services, and Registered Services. A 'Pair with Observer' button is visible in the 'Other Services' section, indicated by a red arrow labeled '3'.

- Have your student open up Canvas.
 - Go to Account and click Settings.
 - On the right hand side, click the Pair with Observer button.
 - The code on the pop-up is the code you will use to pair with your student's account.
- Enter Pairing Code in set-up screen
- Click the box to agree to the terms of use and privacy policy.
- Click Start Participating to finish set-up.
